

Mission constraints

- Mission operation – 45 mins
- UAV max flight time – 20 mins
- Max comm range – 100m
- Operational area – 1000m x 1000m
- All UAVs take-off from the operational center
- All UAVs should land at the start area by 45mins
- Operational height max – 100m
- Max speed 5m/s
- Min distance between vehicles – 20m
- Max time between POI detection and reporting to center – 10s
- Number of POIs – 10. Spawned randomly (position and the time of spawning)
